

COMPLIANCE TRAINING & LEARNING SOLUTIONS

Novusdemia provides compliance training and learning solutions to help organisations equip their workforce with knowledge and tools to understand risks and maintain compliance for future growth.

Expert-led Content

Our courses are professionally developed and curated by leading subject experts across various industries, providing access to world-class insights and knowledge.

Effective & Engaging Knowledge Delivery

We offer courses and training content in multiple formats to allow learners to learn, practice, and assess their understanding in their preferred style of learning.

Relevant to Industry & Latest Regulations

We are agile and adaptable to the changing needs of industries and clients, providing up-to-date content relevant to prevailing industry standards and regulations.

Upgrade your workforce to the next level with compliance and role-based training

Your people are your greatest risk management assets. Their training and awareness are critical to understanding risks and maintaining compliance. Role-based training can provide tailored training based on their specific roles and responsibilities within the organisation.

We offer learning content curated into different levels to meet the needs of audiences from beginner to expert, catering from general to specific functions. With the use of our AI-driven learning experience platform, your staff will be guided on the competencies they require through learning, practice, and assessment.

Embark on your journey to certification

Attain recognised qualifications, demonstrating your knowledge and expertise in your role. In collaboration with renowned universities and accredited training partners, we provide masterclasses and corporate training to share expert insights in topics such as compliance, risk management, corporate governance and technology. We also offer certification preparation courses to prepare you for exams for certification bodies such as ISACA, CompTIA+ and Project Management Institute.

TRAINING SERVICES & LEARNING SOLUTIONS

Corporate Training

We work closely with highly experienced subject matter experts across the Rajah & Tann Asia network and various industries to develop and conduct relevant and effective training courses, ranging from focused in-person masterclasses to asynchronous eLearning content, tailored for your training needs.

Global Training Content Library

Consisting over 850 legal and safety compliance modules in multiple languages, we offer a library of ready and accessible training content that are compliant with global standards consisting of videos, case studies, scenario simulations, certification prep and more for a comprehensive compliance coverage.

Interactive & Multimedia-Based Content Development

Our learning design team excels in applying instructional design and transforming learning content into high-quality interactive and multimedia-based courses. This helps to optimise the learning experience for enhanced knowledge comprehension and retention.

AI-Driven Learning Experience Platform

Enhance your staff's learning journey with a smart platform that utilises AI to suggest relevant courses based on their role, competency level, activity and recent trends. Track training progress for each user and training impact in your organisation with analytic dashboards, customisable reporting and automated notification features for compliance and audits.
